## Genève

### Caran d'Ache, a love affair with Colour

With a worldwide reputation for the quality and beauty of its creations, Caran d'Ache applies its Swiss-made expertise to develop writing instruments and Fine-Arts products.

Born of the passion of its founder for Colour, the Maison has remained loyal to its roots. The pencils, pastels and paints that are designed, developed and manufactured entirely in the Geneva workshops, keep alive the tradition it holds so dear.

Caran d'Ache tells the story of a Swiss family business from the first pencil to its most recent creations. It has applied its precious inherited expertise to creating outstanding products just like Prismalo, the world's first water-soluble colour pencil launched in 1931, which revolutionised the world of design and colour.

Since its very beginning in 1915 and the official opening of the company in 1924 by Arnold Schweitzer, Caran d'Ache's development has been distinguished by its love of beautiful materials.

A never-ending journey through the world of Colour and exploring the most intense pigments, a few days at the heart of materials and an excursion into the universe of light, the Caran d'Ache expertise is a subtle combination of chemistry, science, innovation and creativity.

As a responsible company, Caran d'Ache is committed to a production process calling on an increasingly large share of FSC™ certified products.

Quality and respect for the environment are an integral part of this production process.

For more than 100 years, Caran d'Ache has inspired and accompanied several generations as they explore their emotions and discover their artistic sensitivity.

Fantasy and ease of use with the "Discover" products or expertise and precision with the products in the Classic and Expert ranges intended for both budding artists and creative professionals. The range of Caran d'Ache products offers each and every talent the chance to express themselves freely. Because writing is the expression of a unique style, and because an artist's means of expression lies in the strokes of his or her pencil, Caran d'Ache products are infinitely adaptable.

Accompanying fans of colour everywhere, Caran d'Ache products provide the imagination with a limitless space, free from any constraints.

Originally known as Fabrique Genevoise de Crayons, the brand was rechristened Caran d'Ache in 1924 at the suggestion of Arnold Schweitzer, the head of the company at that time.

Caran d'Ache means "pencil" in Russian and has its roots in the Turkish word "kara-tash" which means "black stone", in reference to the graphite. A true icon of the Swiss Made label, Caran d'Ache remains a family company, currently managed by Carole Hubscher who represents the fourth generation of the family to be involved in the company's management at the highest level since the 1930s.

DIVE INTO THE HEART  
OF OUR FINE ARTS  
EXPERTISE

# ENGAGEMENT

The health and safety of our employees and our customers is our first priority and is ensured mainly by the use of materials that have minimum impact on the environment.

## Ecology

FSC™ is the abbreviation of “Forest Stewardship Council”, a label guaranteeing that the wood used for the production of pencils complies with 10 principles upholding respect for forestry development, the rights of local populations and long-term socio-economic well-being of forestry workers.

The “Approved Product” label (AP) indicates that the fine arts products have been evaluated by a qualified American toxicologist. Certification is provided by the “Art and Creative Materials Institute” (ACMI) which guarantees the safety of fine arts products in accordance with the American ASTM D4236 standard.

## Product safety through quality assurance

A strict quality control guarantees the compliance of our products with all legal requirements and go even further than minimum requirements.

The CE symbol indicates that the product meets the principal European health and safety standards for products. Our products and their labelling conform to Directive 2009/48/CE on the safety of toys. Their design and manufacture are based on the harmonised standard EN 71, guaranteeing that the product conforms to toy safety legislation.

UK Conformity Assessed product.

## SWISS MADE Production

Since the company was founded in 1915, the whole assortment of Caran d’Ache products is designed, developed and manufactured in Switzerland, in the Caran d’Ache workshops in Geneva. With the “Swiss Made” label, we guarantee our demanding customers exceptional quality, high precision, unrivalled reliability, elegance and originality in the design and production of all our products.

# SUSTAINABLE DEVELOPMENT

Caran d’Ache is committed to a policy of sustainable development based on the selection of raw materials, the recycling of our waste, energy saving and environmental management...

## Committed to sustainable manufacturing

Considering the impact of our activities and the longevity of our products is not just a responsibility; it is something that we are passionate about at every level of our company.

We have implemented many measures to protect the environment, including ensuring that our production and supply systems are based locally, improving waste separation and recycling, reducing water and energy usage and adopting sustainable production methods.

In 2018 Caran d’Ache became one of the signatories to the UN Global Compact – a United Nations initiative that encourages companies to adopt a socially responsible approach to their business. This is complemented by the many different certifications that the company holds, which include compliance with international production standards ISO 9001 for quality management and ISO 14001 for environment management, along with European and American product compliance requirements for toxicity (AP), health and safety (CE).

As a living raw material, wood is crucial to Caran d’Ache. In order to help preserve this resource, we prioritise sustainable forest management, as guaranteed by the fact that all our pencils are FSC™ certified.

The leads of Caran d’Ache graphite pencils are made exclusively from 100% natural products. For the most part, the coloured leads and pastels are made from natural fillers and binders. The pigments, most of which are synthetic, satisfy all safety requirements. The varnishes used to make the pencils are primarily water-based, thereby reducing the use of solvents and their impact on the environment.

# EXPERT

**Initially there is a style, the writing of the artist, their imprint, their identity.**

It takes shape and surges forth in the power of a pencil stroke, the softness of chalk or the harmony of a rubbed pastel.

Artists and professional designers, anyone expressing ideas through a sketch, an outline or a drawing needs the reassurance of reliable, quality tools designed for them.

The fashion designer invokes a muslin in a delicate water colour, the draughtsman outlines their project with generous pastel brushstrokes, the art editor expresses an innovative concept with a few precise pencil lines, whilst the artist investigates variations of black in their studio.

Every professional develops a style, like an encounter narrated in the choice of a technique or a colour.

As everyday companions or artistic accomplices, work instruments or objects of pure pleasure, the products in the Expert range from Caran d'Ache accompany every project by offering infinite possibilities of shades and materials.

Technical, reliable and dedicated to creativity, they are at the root of every emotion and are an endless source of inspiration.

*Caran d'Ache has introduced a selective distribution system for the Expert Line products in Switzerland, in the countries of the European Union, the European Economic Area and in the United Kingdom in order to provide a top-end professional service in these countries together with advice concerning the technical qualities specific to these products.*

*In the countries concerned, only authorised distributors and dealers can order and sell the products in the Expert Line.*

Smooth and permanent lead for artists and creative professionals

100% lightfast guarantee for 100 years, in compliance with the highest international standard: ASTM D-6901

Wide range of colours developed with a large variety of highly concentrated pigments

- Colour pencil for highest requirements: artists and creative professionals.
- 100 colours, available in assortments and individually.
- Lead: water-resistant, smooth with a maximal covering power and a high pigment concentration for bright and intense colours, Ø 3.8 mm.
- Lightfastness: compliance with the highest international standards concerning colour pencils' lightfastness: ASTM D-6901.
- Pencil: round, 8 plys, end-sealed in the same colour as the lead, marked with colour name and code.
- Best cedar wood.
- Certified FSC™ Forest Stewardship Council.
- Product conforms to ASTM D4236.
- Techniques: permanent and smooth lead particularly recommended for mixings and gradations, blendings and also shading and burnishing with a white pencil.

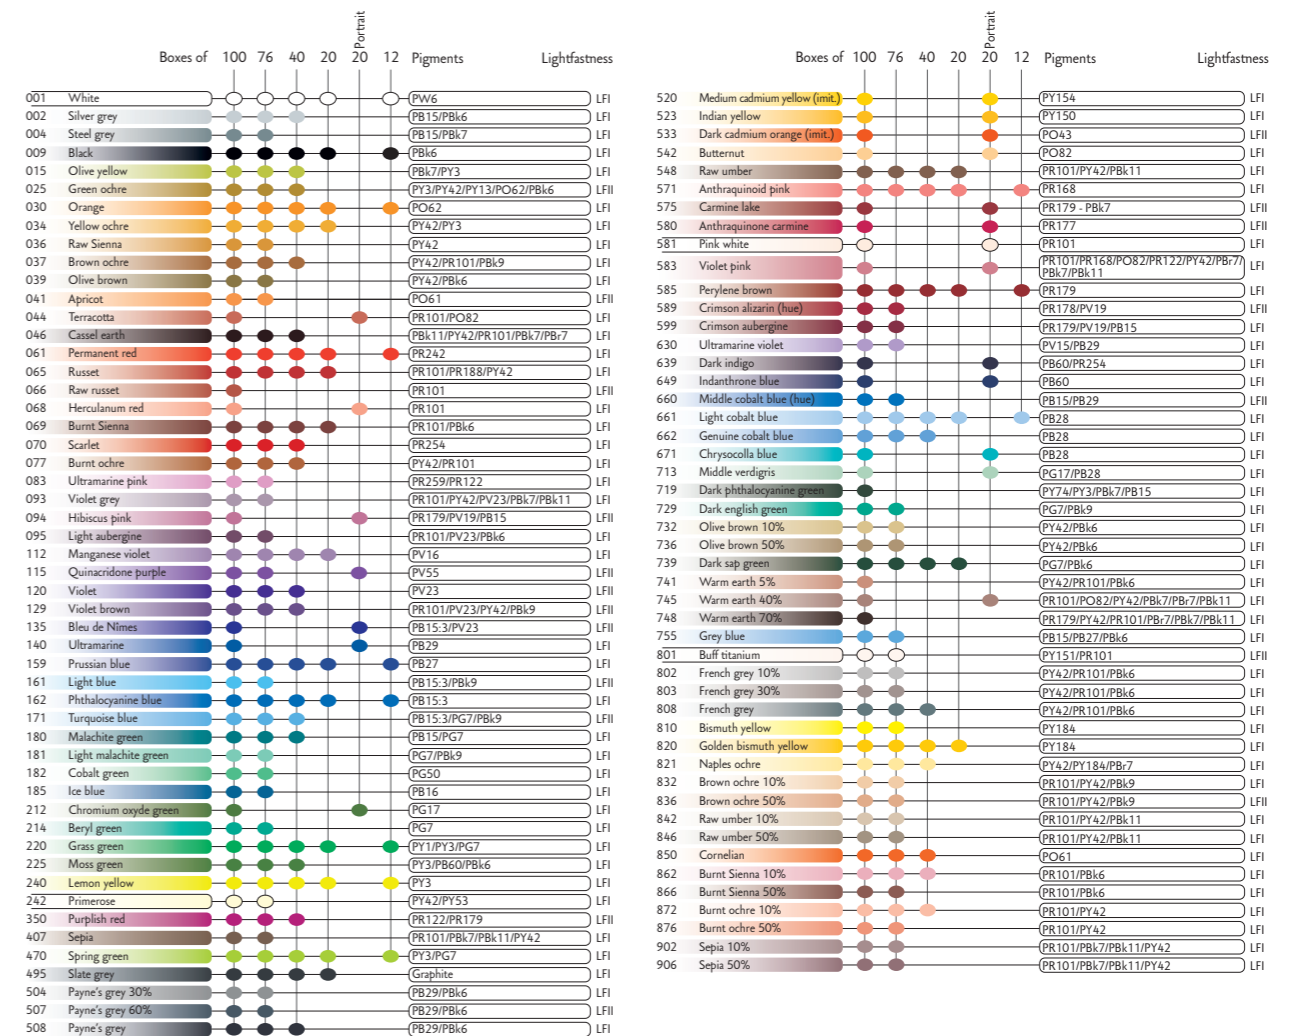

The Luminance 6901® coloured pencil complements the Museum Aquarelle pencil from the Expert range.

The smooth lead of Luminance 6901® pencils requires the use of a well-sharpened pencil sharpener.

For colour availability and assortments: consult colour chart.  
To display separate colours, please consult the Colour Merchandising catalogue.

## LUMINANCE 6901® - COLOUR CHART

81 colours LFI  
19 colours LFII

### What do LFI and LFII mean ?

ΔE = quantifies the difference in colour between two sets of specimens before and after exposure to the light. Only colour pencils with the LFI or LFII classification, ΔE ≤ 8, are compliant with the ASTM D-6901 norm.

The mark of responsible forestry  
FSC® C005365

### What is the Blue Wool Scale ?

An 8-point scale used to measure the lightfastness of colours based on their degree of fading after exposure to light. A lightfastness rating of between \*\* and \*\*\*\*\* has been determined for the 76 colours of our Museum Aquarelle.

### Discover the watercolour palette on p.73

With one sanded surface, reproducing the grain of the paper which holds dry products, and one smooth side for all types of paint, it is the ideal tool for creating watercolour works of art.

# PASTEL PENCIL

Extra-fine dry pastels developed in close collaboration with master pastel artists

Assortments of pencils, cubes and mixed meet the most demanding standards

- 84 colours available in assortments and individually.
- Generous shading, high pigment concentration for rich and vibrant colours, powerful coverage.
- Pure colours, ultra-fine pigments.
- Exceptional lightfastness, conforming to standard Blue Wool Scale (between \*\* and \*\*\*\*\*).
- Pencils: hexagonal, 8 plys, large 4.7 mm lead, strong point, best cedar wood, matt colour cap matches the lead colour, identification number.
- Certified FSC™ Forest Stewardship Council.
- Product conforms to ASTM D4236.

The delicate lead of the pastel pencils requires the use of a cutter and/or sandpaper.

For colour availability and assortments: consult colour chart.  
To display separate colours, please consult the Colour Merchandising catalogue.

## Intense and uniform colours

### Wide selection of colours

### Excellent lightfastness / opaqueness ratio

- Very high-quality oil pastels for professional and amateur artist's requirements.
- Also recommended for advanced tuition.
- 96 colours, available in assortments and individually.
- Pastel : water-resistant colours, soft, non-powdery, soluble in turpentine (spirits of turpentine).
- Very high pigment concentration, economical in use thanks to the high covering capacity.
- Excellent colour stability.
- Excellent lightfastness.
- Product conforms to ASTM D4236.
- Techniques : unlimited colour blending possibilities, templates, impregnating and colouring, finger dragging. Also recommended for use on dark paper.
- Applicable on various supports (paper, cardboard, canvas, a.s.o.).

For colour availability and assortments: consult colour chart.  
To display separate colours, please consult the Colour Merchandising catalogue.

# CLASSIC

With the Classic range, Caran d'Ache invites colour enthusiasts of all ages to discover creative pleasures or to perfect their artistic skills. Offering a whole host of colour pencils, graphite pencils, wax pastels, fibre-tipped pens and gouaches, it boasts quality products which become genuine companions, following the artistic development of young and old alike.

**Rich:** A range of colours that offer a high pigment density and ensure vibrancy.

**Versatile:** A complementary collection that does not compromise quality, the products in the Classic Range will accompany creatives of every level throughout their artistic life.

**Swiss:** The Classic Range is designed and produced entirely in the company's single workshop in Geneva, in accordance with the quality requirements of the Swiss Made label.

**Excellence:** The products in the Classic Range have been tested rigorously to ensure the resistance of the leads and the lightfastness of the colours.

# FIBRALO® & FIBRALO® BRUSH

## Bright and transparent colours

### Great length of writing (> 600 meters)

- Superior quality, 3 years storage guarantee against drying out.
- Recommended for sketching out rough drafts, drawing instruction, and colouring.
- Water-based ink, water-soluble (except Metallic colours), ink does not penetrate the paper, washable on most modern fabrics.
- Product conforms to EN71 (CE / UKCA).

### FIBRALO®

- Fibre-tipped pens with medium-size point, tip thickness of 1.4 mm.
- 30 colours, available in assortments and individually.

### FIBRALO® Brush

- Brush-like tip, tip thickness of 0.5 to 5 mm.
- The subtle resistant tip offers a range of artistic possibilities (detail, flat) and springs back to its original shape.
- Bright colours based on food colourings.
- 15 colours, available as an assortment or individually.
- Ideal for colouring, drawing, calligraphy, comics, dynamic sketches etc.

### METALLIC

- 2 luminous colours, covering power.
- Water-based ink, not water-soluble.

For colour availability and assortments: consult colour chart.  
To display separate colours, please consult the Colour Merchandising catalogue.

# GOUACHE ECO

Water-based paint with natural binder

Highly velvety gouache that does not crack

Bright and opaque colours

- Economical use thanks to high pigment concentration.
- It provides excellent light resistance.
- Ready to use.
- 500 ml transparent PET container to ensure an accurate perception of the colour even when buying.
- Adhesion on a range of different materials such as paper, cardboard, wood, etc.
- Ideal for art teaching, learning blending techniques and enjoying creative leisure activities for anyone from the age of 5.
- Complies with EN71 (CE / UKCA) standards, except fluorescent colours.

## Gouache Eco

- 18 colours including 4 fluorescent colours.
- Easy to wash off hands using soapy water and to clean off floors and tables.
- More than 80% of the ingredients are of natural origin.

## Gouache Acryl

- 2 metallic colours: gold and silver.
- Matt, opaque appearance, indelebile once dry.

For colour availability and assortments: consult colour chart.

# DISCOVER

## SWISSCOLOR

Colour pencils ..... 54-55  
Pastels ..... 56-57

Dreaming of the world, recounting their emotions with a single stroke, inventing, experimenting... Young artists draw as they breathe, express themselves and are inspired by colour, drawn by limitless imagination.

Absolutely free, totally spontaneous, they play with techniques by instinct, with no aim other than their own pleasure, and with no constraint other than their creativity.

From the first pencil to the tube of gouache, from the generous selection received as a gift to the felt-tips for school, the Maison Caran d'Ache assists in every stage of exploring the world of shapes and colours with top-quality products.

# SWISSCOLOR COLOUR PENCILS

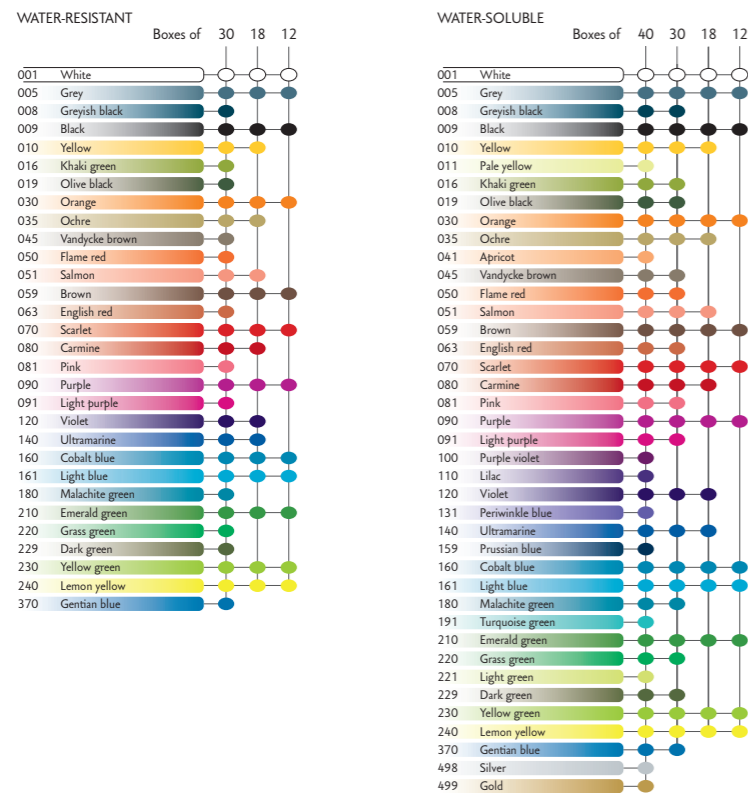

The colour pencil bearing the Swiss colours for a typical, timeless and colourful Swiss souvenir

- Soft and resistant 2.8 mm lead.
- In water-soluble or water-resistant version.
- Easy to sharpen.
- Smoothness and ease of use.
- Hexagonal shape – does not roll off the table.
- High pigment concentration.
- High covering power.
- Economical to use.
- Bright and intense colours.
- Constant regularity from one colour to another.
- Produced in premium FSC™ certified cedar wood.
- Product conforms to EN71 (CE / UKCA).
- Techniques: crosshatching, flatterring, graded applications and unlimited blending.

For colour availability and assortments: consult colour chart.

# OTHER PRODUCTS

## No detail should be left to chance...

Get the best results from a pencil by sharpening it perfectly. Give a drawing more depth by using the ideal kind of paper. Even out the colours or preserve a work by applying a fixative. Each technique needs the right accessory to release its full creative potential.

Ranging from brushes to mediums, from erasers to papers, Caran d'Ache accessories help to bring out all the artistic qualities of its products.

The Geneva Company has developed accessories to complement its paints, pastels, colours and graphite pencils. They perfect the application, enhance the beauty of the work... and leave no detail to chance.

# DRAWING BLISTERS

## 1 Pencil Blender + 1 Full Blender

- A universal colourless oil and wax-based medium for mixing, blending and intensifying colours.
- It forms a waterproof coating and increases protection against UV.
- Full Blender - Flexible use: sharpened like a pencil for detailed work or applied flat to cover large areas.
- Ideal complement to Caran d'Ache colour pencils, graphites and wax pastels.

902.301

## Sketcher Non-photo blue pencil

- The Sketcher is a specific blue pencil with fine, soft and resistant lead allowing at once a delicate work and large work for basic sketches.
- It does not appear during the reproductions in black-and-white (scans, photocopies, etc.).
- Ideal for comic strips, animated films, cartoons and illustrations, etc.
- Easily erasable, the Sketcher by Caran d'Ache is the perfect pencil to correct sketches while maintaining the cleanliness of the lines.

# ACCESSORIES & MEDIUMS

## Water-colour palette

- Water-colours paint palette.
- One rough side similar to the grain of the paper, so that the material can cling to dry products (water-soluble colour pencils, Neocolor®II Aquarelle, water-soluble graphite pencils...).
- One smooth side for all types of painting (gouache, acrylic...).
- Rectangular shape which allows the pigment to be spread along the length and to perform techniques, which are exclusive to Caran d'Ache, such as the 'Bamboo', 'the Rainbow' and also the 'Monotypes'.
- Very resistant to UV, alcohol, acetone and friction.
- Dimensions: 26 x 13 cm.

117.103

## Fixatives & Spray

- Protector spray for oil and wax pastels (200 ml).
- Spray for pencils, charcoals and dry pastels (400 ml).
- Empty spray bottle (50 ml) for creating effects with watercolour mediums.

911.000 913.000 116.201

## Accessories & Mediums

- Multi-angle scraper.
- Pencil and chalk holder to extend the use of the products.
- Penholder.
